Dear Sir or Madam,
Application A 1063 - Food derived from
Herbicide-tolerant Soybean MON 8770

I request that this application be
declined

Reasons.

1. The safety information provided by the applicant has been derived from work carried out in the applicant own research facilities, has not been published, and has not been peer-reviewed.
Therefore, conflict-of-interest issue arise, and the credibility of the information is dubious.
2. There is no assessment of the safety herbicide in question in combination with the adjuvants it is applied with, nor of the toxicology of those adjuvants in combination with Dicamba.

In view of the above, I regard the information provided by the applicant as spurious.
