**12. Submission Text:** To whom this concerns, Please read this very fitting referenced article on why Monsanto should be banned from introducing GMO strains to New Zealand. <http://www.wakeupnz.net/genetically-modified-organisms-gmos-dangers-new-zealand/> With special notice put to this article here as well: <http://rt.com/usa/gm-corn-rootworm-resistance-642/> The dangers far outweigh the possible gains. New Zealand needs to stay GE free and maintain our clean green image. This will be worth so much to New Zealand in the future if the Food Standards can do their job protecting New Zealand agriculture and not sell out to big corporations. Kind regards, Kyle Sutherland
