12. **Submission Text:** We are a small bakery/ family run business, we pride ourselves on ensuring that no GMOs are present in any of our product, we are supported by our customers and wider community, people do not want GMO's present in the food chain. They do not want the wider health issues related to the spraying of crops with 'round up'. We do not have a food shortage issue in nz, we do not need food to be 'created' genetically for us. Please listen to normal people and do not all Monsanto / Bayer the companies behind this food movement to buy our country and our food, lets follow suit of the countries that are banning monsanto, round up and gmo's completely. To much of the evidence shows that we need to reconsider this route and that GMO's have no place in our food.
