

APPENDIX 4 – EXAMPLES OF FRESH-CUT AVOCADO AND BANANA PRODUCTS

A4.1 Avocado

Natureseal BAS6 for avocado is a proven technology that has been accepted in the supermarkets and is being used every day to enable the availability of avocado based convenience items. Below are a few examples of avocado based products found in the UK multiples (Agricoat, 2014)

To: Food Standards Australia New Zealand
In relation to: Application for extension of use of L-cysteine as a food additive

A4.2 Banana

Examples of commercial banana products are not available.

An example of an application of the product is shown below - pre-sliced banana could be used in a commercial fruit salad mix.
