Project Officer Application A1127
Food Standards Australia New Zealand
PO Box 10559
The Terrace
WELLINGTON 6143

Dear Sir/Madam

Application A1127 – Processing Aids in Wine– Call for Submissions

Thank you for the opportunity to comment on this application. The Ministry for Primary Industries (MPI) has the following comments to make.

MPI supports amending the Australia New Zealand Food Standards Code to permit the use of ammonium bisulphite, chitin-glucan, polyvinylimidazole-polyvinylpyrrolidone co-polymers and silver chloride as a processing aids at GMP for use in the manufacture of wine. We note that these provisions align with permissions for use in wine making within the European Union.

Yours sincerely

Signed
