

Executive Summary

BASF Australia is making this application to seek an amendment to the following section of the Australia New Zealand Food Standards Code (the Code):

Schedule 20 Maximum residue limits.

BASF Australia is seeking amendment of maximum residue limit (MRL) for the agricultural chemical imazapyr in barley grain from 0.05ppm to 0.7ppm to align with APVMA and Codex (as below).

Commodity	Chemical	Authority	Current MRL
Barley grain	Imazapyr	APVMA	0.7 ppm
		Codex	0.7 ppm
		FSANZ	0.05 ppm
