Email Address:	bonichica@hotmail.com
Submission Text:	<p>I urge FSANZ to decline both these applications for GE foods.</p> <p>The Guidelines that should be considered by FSANZ that are not required at the moment: -the toxicity of glyphosate. -The more toxic full formulation sprayed on the crops. -the mixture of herbicides sprayed on the crop. -changes in plant nutritional composition following the herbicide spray. -there is an increasing amount of court cases against</p> <p>Bayer/Monsanto awarding damages to the public for their</p>

role in causing disease and health problems. In addition, FSAZ does not review independent data suggesting these factors increase health risk. The rules must be changed to protect the public.
