Administrative Assessment Report – Proposal P1029

Maximum Level for Tutin in Honey

Brief Description of Proposal: To develop a permanent maximum level for tutin in honey.		Potentially affected Standard: 1.4.1
Procedure: General	Estimated total hours: Maximum 1000 hours Reasons why: Proposal involves an assessment of the risk to public health and safety of greater than average complexity; and possible economic impacts on critical agricultural sectors.	Estimated start work: December 2013

Other Comments or Relevant Matters:

The interim standard (Standard 1.4.1) for tutin in honey and comb honey expires on 31 March 2015. FSANZ will seek to introduce a permanent maximum level (ML) for tutin in honey prior to the expiration of this ML.

Decision

Proposal prepared

Date: 21 November 2013
