Proposal P1034 – Chemical Migration from Packaging into Food

Plastics New Zealand represents plastics manufacturers and polymer suppliers in New Zealand. Plastic packaging is a segment of the wider packaging industry which is represented in New Zealand by PAC. NZ

We would like to take the opportunity of endorsing PAC NZ's recent submission on the Chemical Migration from packaging into food. Our positions are strongly aligned.

We appreciate that this endorsement may reach you after the submission close date but trust it will be noted during the review process.

Kind regards

Business Manager
Plastics New Zealand
